OBJECTIVE

Enthusiastic Computer Science student with strong knowledge of Java, Python and web technologies. Experienced in full-stack development using the MERN stack, RESTful APIs and database management. Eager to apply problem-solving and technical skills to develop scalable software solutions.

EDUCATION

B.Tech in Computer Science and Engineering	2022 – Present
Rajiv Gandhi University of Knowledge and Technologies, RK Valley	CGPA: 9.0
PUC (Pre-University Course)	2020 – 2022
Rajiv Gandhi University of Knowledge and Technologies, RK Valley	CGPA: 9.57

INTERNSHIP EXPERIENCE

Full Stack Developer Intern — ByteHearts (Remote)	May 2025 – Oct 2025
--	----------------------------

- Built and deployed scalable full-stack web applications using the MERN stack, ensuring responsiveness and high performance across devices.
- Developed and optimized RESTful APIs with secure authentication and authorization using JWT and bcrypt.
- Collaborated in an agile development team using Git, GitHub and version control.
- Improved database performance by optimizing MongoDB queries and implementing efficient schema designs for faster data retrieval.

SKILLS

Languages: Java, JavaScript, Python

Frontend: HTML, CSS, React, Bootstrap, Tailwind CSS, Redux

Backend: Node.js, Express.js, RESTful APIs

Databases: MongoDB, SQL

Tools: Git, GitHub, VS Code, Docker, Hopscotch, Claude, Cursor

Core CS: Data Structures & Algorithms, OS, CN, DBMS, Authentication (JWT & bcrypt)

PROJECTS

Learnify

[Live Demo](#)

- Engineered a full-stack Learning Management System (LMS) using the MERN stack with secure role-based authentication for admins and students.
- Implemented course creation, enrollment tracking, and Stripe-based payment integration with real-time updates.
- Designed a fully responsive and user-friendly interface leveraging React, Tailwind CSS and RTK Query for optimized performance.

Wanderlust

[Live Demo](#)

- Developed a full-stack travel accommodation platform enabling users to explore, book and review stays with integrated map support.
- Built RESTful APIs and modular backend architecture using Node.js, Express and MongoDB for robust data management.
- Enhanced UI/UX through responsive Bootstrap components, client-side validation and dynamic content rendering.

ACHIEVEMENTS

- Solved 150+ DSA problems on LeetCode and GeeksforGeeks with optimized solutions.
- Earned a participation certificate in the SaYukth CODEQUEST Championship.
